

PVC Surrounding Nursery Crate

High quality PVC Surrounding Nursery Crate is offered by China manufacturers Deba Brothers®. The surrounding of the nursery piglet pen can choose the two forms of PVC and galvanized steel according to different requirements of customers. The metal stall is better ventilated, suitable for nursery barn warm weather. The PVC board is more closed, the plastic drain floor, strong and durable, facilitate the transportation assembly. It is easy to clean and does not hurt pigs.

Product Description

Deba Brothers® is a leading China PVC Surrounding Nursery Crate manufacturers, suppliers and exporter. The PVC surrounding nursery crate produced by Deba Brothers® can effectively block the cold wind for piglets. The PVC surrounding nursery crate is more closed, providing a closed space for the pig. The closed state of the PVC surrounding nursery crate can provide a warm growing environment for piglets. The whole PVC surrounding nursery crate is very easy to install and no need to be welded. The frame of the rails are made of hot galvanized pipes, which combined with PVC boards. The thickness of the pipe is 2.5mm, and the welds are firm and nice. The two-sided trough and round automatic feeders are all optional.
